

The user prepares the message.

A contact form titled "Contact Me" with a dark background. On the left is a graphic of a yellow envelope with a stamp and wavy lines. To the right are five input fields: a name field containing "Biley Is", an email field containing "bileyis289@tourcc.com", a phone field containing "0123456789", a short message field containing "This is a test", and a larger text area containing "This is a test message." with the word "message." underlined. A green "Send Message" button with a paper plane icon is at the bottom right.

The user gets feedback that the message is successfully send.

Siteowner has received the message.

Siteowner has set CONTACT_FORM_ENABLED to null. The user tries to send another message, but he gets feedback that the siteowner does not allow messages to be send at this time.
